

Residential

We provide a range of high quality products including Intruder Alarms and CCTV Systems to home owners and landlords throughout the North East.

Intruder Alarms

Alarm systems are an essential investment to protect not only your property, but also your family. Research proves that it is far less likely that your home will be burgled if you have a correctly fitted and well maintained alarm system.

Our alarms conform to the Association of Chief Police Officers (ACPO) Intruder Alarm Policy and are installed to DD 243, PD662:2010 BS 6799 Class VI for wire-free alarms.

Our systems can offer independent control of different zones within a property, combined with comprehensive event logs.

We can protect your home with traditional hard wired systems or wire free systems where due to interior decoration cabling can not be visible.

CCTV

A CCTV video security camera system can be used to monitor and protect your home and family. The type of security system that you choose will depend on your exact requirements.

Our CCTV systems can be as simple as one camera linked to a PC or mobile device.

Modern-day technology has made it possible to create covert CCTV cameras that are small enough to fit into an alarm clock radio. In poorly lighted areas, you might find it worth the extra expense to invest in infrared security cameras.

Access Control

Access control systems are designed to protect your property by restricting and monitoring access.

We can implement both proximity and swipe technology.

We specialise in the supply and installation of card reader and keypad access control systems.

We offer solutions ranging from simple intercom access, proximity cards or fobs to advanced biometric systems such as a fingerprint and hand scan readers.

Whatever access control solution you choose we can integrate it with other security systems for centralised management of the site.

About

PSL Security Systems was established in early 2000. Our goal is to provide an extensive range of high quality products and services at realistic prices to appeal to residential, commercial / industrial and retail customers.

Our ongoing commitment is to not only meet, but exceed our customers expectations in both product quality and customer service excellence. By doing this we have quickly become a leading figure in the loss prevention industry in our region.

Our product portfolio is impressive with an extensive range to ensure we meet your security needs, whatever your budget.

PSL Security Systems will continue to be an industry leader, providing high quality products and services throughout our region and beyond.

Mission Statement

Our goal is to be recognised as a company that not only meets but exceeds customers expectations in both products and after sales service.

We aim to -

Have a pricing structure that reflects quality and commitment to long term trading relationships.

Pride ourselves on representing all customers from individuals and sole traders to large corporate clients.

To be the largest and most respected independent security installer in the North of England.

Service & Quality

With all our security systems we can supply fully-inclusive maintenance packages.

These include:

- Preventative Maintenance Visits
- Priority Emergency Call Out
- Loan Equipment Service
- Technical Back-Up

All our packages are extremely competitive and offer value for money, giving you complete satisfaction and peace of mind!
